Milk Haulers Pandemic Planning Guide

Introduction

The purpose of this planning template is to record key business information and contacts that decision makers in your trucking company may need in the event of an emergency. Identify whom you need to work with for planning, training, capacity, communication, resources and information. To be sure you are working with the right people, ask your contacts to participate with you in a "dry run" or "table top" exercise to see how well your plan works.

Things change

Keep it current - set up a review schedule and update your contacts on a regular basis.

Plan for regular "table top" exercises to make sure your plan still works!

This template is based on the Alberta Food Industry Pandemic Preparedness Business Continuity Planning Template which was adapted from:

"Influenza Pandemic: Continuity Planning Guide for Canadian Business", Canadian Manufacturers and Exporters, March 2006 http://www.cme-mec.ca/national/template_na.asp?p=22

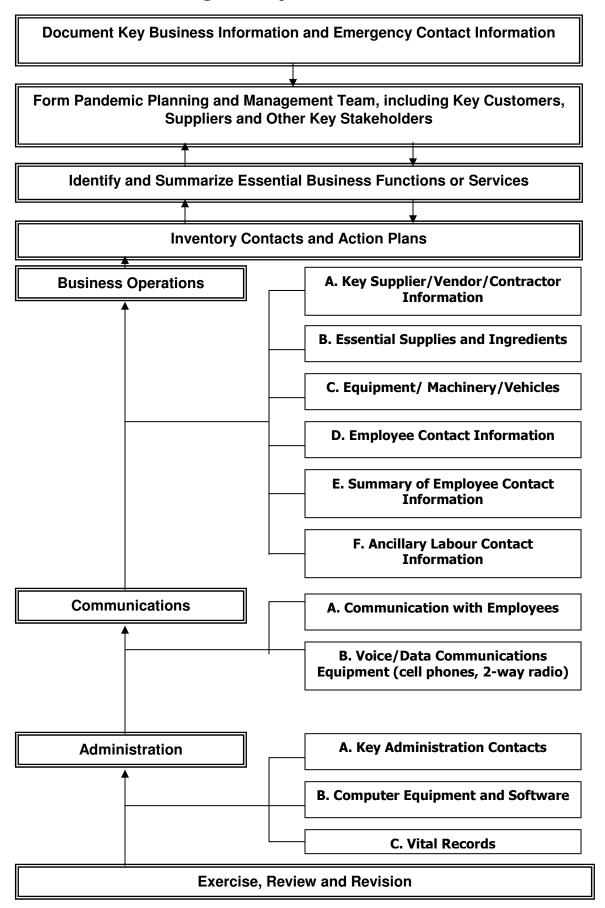

It has been reviewed by transporters during the Eastern Pandemic Planning Workshop for the Dairy Industry held in Charlottetown, PEI on February 21-22, 2008.

PANDEMIC PLANNING/MANAGEMENT TEAM

This team is responsible for developing a plan, specific to a pandemic influenza crisis, as an addendum to the company's existing Emergency Response Plan and/or Business Continuity (BC) Plan. In the event of a pandemic influenza crisis, this team would become the Pandemic Emergency Management Team. Suggested roles and responsibilities would include Primary Crisis Manager, Secondary Crisis Manager, Business Continuity Planning Manager, Operations Manager, Logistics Manager, Finance Manager, and Communications Manager.

ESSENTIAL BUSINESS FUNCTIONS OR SERVICES

Identify all business functions or services that are essential to our operation and/or critical to the survival of our business. The following are some key questions to help us decide what they are:

- What are our most critical and time sensitive business functions or services?
- How much down time can we tolerate for each business function or service?
- Which business functions or services are necessary to fulfill our legal and financial obligations and maintain cash flow?
- Which business functions or services are essential to maintain our market share and reputation, or to strategically adjust to changed circumstances?

Copy this worksheet and complete one for each identified essential business function or service.

BUSINESS OPERATIONS

A. Key Supplier/Vendor/Contractor Information

During a pandemic, we can expect disruptions in the flow of supplies and in the ability to ship those goods or deliver services. Our ability to resume operations also relies on the ability of our suppliers to deliver what we need on time.

Copy this worksheet and use to record information about each key supplier, vendor, or contractor, including those that could be used as an alternate choice. Include suppliers of logistics, trucking services and outside storage facility contracts.

| Status: Current Supplier/Vendor/Contractor | □ Back-up Supplier/Vendor/Contractor |

Appendix 1 – Social distancing protocol for truck drivers

Social distancing means minimizing human-to-human contact in peak phases of pandemic influenza.

Suggestions on how to minimize close contact include:

- Avoid face-to-face contact remain in the cab or away from others who are in the milkhouse or vicinity on the farm <u>or</u> in the unloading bay at the plant
- Minimize contact with others if unavoidable. Meet in large areas. Use cell phones or radios to communicate.
- Avoid non-essential stops at restaurants or stores. Cancel or postpone non-essential meetings/workshops/training sessions.
- If there is a second driver, leave a down time between shifts. Ventilate the cab between shifts. Use disinfectant to clean the steering wheel, the door handles, and all other surfaces that are often touched in the truck before starting your shift.
- Avoid unnecessary travel (especially to endemic regions).
